CONTACT US

Mr. Joram Rampersad
Chairman/Managing Director

Mr. Rampersad is the heart and soul of The Great Guyana Trade & Enterprise Incorporated. He is the founder, Chairman and Managing Director of the Company, which he began in 2017 with three employees, including himself. Since then, he has grown his company into a successful construction and inspection company. Mr. Rampersad is passionate about his family, his company, his clients and his community.

GREAT GUYANA

WELCOME MESSAGE

Thank you for your interest in our company. We are delighted to introduce you to Great Guyana, which attributes much of its success to the dedication and hard work of its Employees and Directors. As you peruse our Business Introduction, you will see our philosophy and experience. Our hope, is that you would see how GG can add value to your business.

ABOUT OUR COMPANY

WE ARE DEDICATED TO EACH AND EVERY PROJECT

- Dependability
- Innovation
- Respect
- Service to others
- Environmentalism

GREAT GUYANA

At Great Guyana (GG), we strive to develop collaborative environments with all stakeholders. Established in 2017, Great Guyana is the sister company of Barracuda Construction and Inspection Limited, a company with over twenty (20) years experience in Trinidad & Tobago's Oil and Gas Industry.

GG is an affiliate member of the AMERICAN WELDING SOCIETY and invites you to work with a new generation of contractor who, first and foremost, maintains the highest standards of quality and ethics. In exchange, we promise you that when it's built by GG, it is built right. We have set our sights on contributing to a sustainable future which aligns with our goal of environmental stewardship.

Driven by excellence in execution, GG is committed to ensuring the safety of our employees.

Founder and owner of GG, Mr. Joram Rampersad, established the company to bring a high Quality General Construction and Inspection Services provider to the industry.

The company will seek to provide its services in the timeliest manner and with an ongoing comprehensive quality-control program to deliver 100% customer satisfaction. The company's owner sees each contract as an agreement not between a business and its customers, but between partners that wish to create a close and mutually-beneficial long-term relationship.

MISSION, VISION & VALUES

VISION

“Our vision reminds each of us of what we should be striving for each day and where we ultimately want to be as a company.”

❖ **GG’s vision is:**

To be the premier contractor, delivering projects and services to a national, regional and global marketplace. Our track record has proven that time and again when faced with the task at hand, regardless of the challenges, we deliver the work that is expected of us. To that end, GG motto is 'We Deliver'.

MISSION

“Our mission defines what we set out to do each day”.

❖ **GG’s mission is:**

To safely deliver any project, on time, within budget, for the benefit of our customers, employees and the communities we serve.

CORE VALUES

GGTE’s core values drive everything we do. Incorporating these core values in our daily work, and making them an integral part of our culture, is key to our future success.

“Our values solidify who we are and what we believe”.

❖ **GG’s values are:**

- ✓ Uncompromising commitment to Quality, Health, Safety and Environment;
- ✓ Open relationship with our employees based on mutual trust, respect and success;
- ✓ Transparency, Accountability and Discipline in our business;
- ✓ Best in class Risk Awareness;
- ✓ Integrity;
- ✓ Financial Responsibility to our stakeholders.

“Innovation
distinguishes
between a
leader and a
follower.”

Steve Jobs

ABOUT THE AMERICAN WELDING SOCIETY

The American Welding Society (AWS) was founded in 1919, as a nonprofit organization with a global mission to advance the science, technology and application of welding and allied joining and cutting processes, including brazing, soldering and thermal spraying. AWS strives to move the industry forward in both thought and action, as well as inspire new generations to see the exciting career opportunities available.

The Society is dedicated to supporting hundreds of thousands of industry professionals, including: welders, business leaders, sales and service teams, manufacturers, vendors, associations, educational institutions, committee volunteers, and students. We connect welding communities from around the world into a collaborative force, built on a foundation of higher standards; advanced learning; and rewarding growth.

Membership

AWS proudly serves over 70,000 members. Members include individual welders, supervisors, executives, engineers, scientists, educators, researchers, inspectors, foremen, sales and service teams, as well as manufacturers, independent shops, distributorships, end-users, and educational institutions. Membership interests span automatic, semi-automatic and manual welding, brazing, soldering, ceramics, lamination, robotics, thermal spray process and welding safety and health.

ABOUT THE COMPANY

Code of Conduct

✓ The core values, ethics, integrity and the duty of employees to abide by them, are the foundation of the company's continued success.

✓ GG's code of business conduct describes not only our standards of integrity but also some of our specific principles that are most likely to affect GG's business. Conducting our business with ethics and integrity is our key priority. GG would not in any way accept, tolerate or condone any instance of unethical or illegal behavior.

Health, Safety & Environment Policy

The Company will comply with all applicable Laws and relevant industry standards of practice concerning protection of health and safety of its Employees in the work place and other persons affected by its business activities and the prevention of environmental pollution as outlined by The OSHA Act under The Republic of Trinidad and Tobago. Protection of health, safety, and the prevention of pollution to the environment is a primary goal of the Company and the management of the Company shall take such actions as are reasonable and necessary to achieve such goal and carry out this Policy.

The Company will continuously evaluate the Health, Safety and Environmental ("HSE") aspects of its products and services. The goal will be to develop and provide products and services that have no undue environmental impact and are safe in their intended use, efficient in their consumption of energy and natural resources and can be recycled, re-used or disposed of safely.

All Directors, Employees and Legal Agents of the Company will conduct their duties and responsibilities in a manner which is compatible with achieving these goals and carrying out this Policy.

The Company believes that effective HSE management is good business. As in other areas of its business, the Company is committed to continuous improvement of HSE management practices.

The Company will communicate and make available this Policy to its Employees, clients, contractors, suppliers, partners and customers and with the communities in which it operates in order to achieve these goals and carry out these policies.

American Welding Society
AFFILIATE COMPANY MEMBER

Purpose

This Policy establishes and communicates the Company's policy concerning the protection of the health and safety of the Company's Employees and other persons affected by the Company's business activities and the prevention of environmental pollution with respect to the Company's business activities and operations.

Procedure

1. This Corporate Policy shall be implemented by the Company under the oversight of the Health, Safety and Environment Committee of the Board of Directors ("HSE Committee").
2. The Company shall establish and maintain self-assessment and audit programs sufficient to provide management of the Company and the HSE Committee with reports and other information concerning the Company's compliance with this Policy.
3. The Chief Executive Officer of the Company shall designate a senior officer of the Company as its Chief Health, Safety and Environment Officer ("Chief HSE Officer").
4. The Chief HSE Officer shall oversee the administration of this Corporate Policy and shall make such recommendations to the HSE Committee as he or she shall deem appropriate to carry out such Policy and achieve its goals. The Chief HSE Officer shall report to the HSE Committee at least once each year concerning the Company's compliance with this Corporate Policy and the activities administered by the Chief HSE Officer.

Corporate Social Responsibility

GGTE's Corporate Social Responsibility is more than just an add-on to the service we provide: it is an integral part of our strategy and defines the basic principles and ethics that guide us in our business conduct around our community and our country.

We are strongly committed to the principle of achieving commercial success in ways that honor ethical values and respect people, communities and the natural environment; and that our business goals will be best achieved when we act with honesty, integrity, openness and fairness in all of our dealings with stakeholders. This principle provides the overall ethical framework for all our operations and activities.

We want to be regarded as a good 'corporate citizen' wherever we conduct our business. The guiding rule to our employees is that our business principles should never be compromised. We want our principles and ethics to provide guidance, vision and a charter to inspire dynamic employees to promote leadership and responsibility in ensuring the proper conduct of our business.

The core guiding principles of our policy are:

1. Business Conduct
2. Commitment to stakeholders
3. How we work with our people, customers, community and suppliers
4. Environmental consideration

Purpose

This Policy establishes and communicates the Company's policy concerning the quality of work conducted and achieved by GG. Its a guarantee of our promise to you.

Procedure

1. This Corporate Policy shall be implemented by the Company under the oversight of the Corporate Social Responsibility Committee of the Board of Directors ("CSR Committee").
2. The Company shall establish and maintain self-assessment and audit programs sufficient to provide management of the Company and the CSR Committee with reports and other information concerning the Company's compliance with this Policy.
3. The Chief Executive Officer of the Company shall designate a senior officer of the Company as its Chief CSR Officer
4. The Chief CSR Officer shall oversee the administration of this Corporate Policy and shall make such recommendations to the CSR Committee as he or she shall deem appropriate to carry out such Policy and achieve its goals. The Chief CSR Officer shall report to the CSR Committee at least once each year concerning the Company's compliance with this Corporate Policy and the activities administered by the Chief CSR Officer.

Quality Statement

All products and services provided by Great Guyana Trade & Enterprise (GG) shall meet all manufacturer, code and client requirements as to maintain high levels of customer satisfaction. GG is also environmentally conscious and is dedicated to executing all work scopes with no harm to the surrounding environment.

GG owns and operates a QMS that is built on the frame work of ISO 9001 – 2008 standard. Management at GG is committed to continually improving the processes and systems to achieve operational excellence:

GG achieves these initiatives via:

- **Implementing a robust competency program**
- **Conducting internal audits and implementing improvement actions**
- **Monitoring and measuring product and service**
- **Addressing occurrences of non-compliance via the NCR process**
- **Identifying business risks and implementing the relevant mitigation**

Purpose

This Policy establishes and communicates the Company's policy concerning the quality of work conducted and achieved by GG. Its a guarantee of our promise to you.

Procedure

1. This Corporate Policy shall be implemented by the Company under the oversight of the Quality Standards Committee of the Board of Directors ("Quality Committee").
2. The Company shall establish and maintain self-assessment and audit programs sufficient to provide management of the Company and the Quality Committee with reports and other information concerning the Company's compliance with this Policy.
3. The Chief Executive Officer of the Company shall designate a senior officer of the Company as its Chief Quality Officer
4. The Chief Quality Officer shall oversee the administration of this Corporate Policy and shall make such recommendations to the Quality Committee as he or she shall deem appropriate to carry out such Policy and achieve its goals. The Chief Quality Officer shall report to the Quality Standards Committee at least once each year concerning the Company's compliance with this Corporate Policy and the activities administered by the Chief Quality Officer.
